“Having started out in 2018 as construction engineering company and a solutions provider for all construction related services, **RAS** company started in the contracting field then with a big step ahead it expanded to include building maintenance, and full solutions for Electromechanical works All this to provide smoother, more convenient and smarter services to all our customers.

RAS Company has since achieved major growth by expanding turnkey construction, electromechanical, main contractors, and all types of building maintenance. We are quick to respond to market trends. Increasingly, government is looking to the private sectors to be the key to the growth through the development, financing, construction, ownership, and operation of major infrastructure projects.

We are putting upbeat in putting together the resources for such projects So, **RAS** symbolizes excellence, innovation and development.”

“Being with **RAS** Company entail a lot of hard work, commitment and not to mention the trust you have for the company.

Since I joined the company last 2018, these are the key factors which keeps RAS as one of the leading establishments in trading and contracting here in Qatar.

We work hard in order to meet all the demands of a booming country and to improve our work processes and client’s interpersonal relationship. The company comprises of well known, qualified and expert professionals in trading and contracting field. We have also acquired different types of tools and techniques in order to respond effectively to the fast-paced dynamics of construction works.

Now, the company has gone a long way and will continue to soar high and prosper in providing good services to all our clients and evolves in the construction industry which complies with the latest international standards. And being the General Manager of **RAS** Company, I ensure that we give our 100% dedication and commitment to all our clients and give them our utmost service to the fullest so that every client of **RAS** will be assured of a good service at all times.”
